PROJECTS

Title : Weather web app (using: HTML CSS JAVASCRIPT)

Objective: The objective of the Weather Web app is to provide users with a convenient and reliable platform to access weather information effortlessly. By delivering real-time weather updates and location-based forecasts, the app aims to enable users to make informed decisions and plan their activities accordingly.

Description: The Weather Web app is a visually appealing and user-friendly application designed using HTML, CSS, and JavaScript.

Title : QR Code Generator(using: HTML CSS JAVASCRIPT)

Objective: The objective of the QR Code Generator project is to provide users with a user-friendly and efficient tool to generate QR codes. By utilizing HTML, CSS, and JavaScript, the project aims to create an interactive and responsive web application that enables users to generate QR codes for various purposes quickly and easily.

Description: The QR Code Generator is a visually appealing and intuitive web application developed using HTML, CSS, and JavaScript. It allows users to generate QR codes for different types of data, including URLs, text, contact information, and more.
